2030 · SSP2-4.5 · effort frozen at 2024

China 26.1 records per year · 53% of rows in support

2030 · SSP2-4.5 · effort growing (+0.6 SD per decade)

China 30.9 records per year · 33% of rows in support

Expected new records per year

Percentages: share of species rows inside the fitted support. Grey: no effort data.

Under SSP5-8.5 the two effort scenarios give 25.9 and 30.5 records per year: almost the same.
